## The 2022 Cadet Engineer Celebration at West Point *Co-Sponsored by SAME NYC Post and the Army Engineer Association*

### **INFORMATION**

The Young Members Committee of the Society of American Military Engineers, NYC Post, and the Army Engineer Association host an annual celebration to congratulate the cadets of the United States Military Academy being introduced to the Engineer Regiment of the United States Army. **For the first time since 2019, we will again be holding this event in person at West Point's Eisenhower Hall!** While the past two years of COVID forced us to host a virtual event, nothing beats being at West Point and meeting the cadets branching into the Engineering Regiment.

Please join us for this wonderful event on Wednesday, April 20th and meet with branching cadets and other industry sponsors. The support of our industry sponsors is key to the success of this event. Please visit <https://same-nyc.org> and where we've included the **official invitation letter** and **registration form** for your use. You can complete the registration form and return to me via e-mail or register online using the **ONLINE REGISTRATION** link.

Social hour begins at 5:30 pm and entrance to the ball room, where dinner is served, will be at 7:00 pm.

**The deadline to register is Friday, April 8, 2022.**

PLEASE NOTE: As of this e-mail, the current requirements at West Point call for for **all guests to be vaccinated and provide proof of vaccination.**

Should you have any questions, please feel free to reach out to me. I hope you'll join us and make this event another huge success!

Thank you for your continued support.

*Vinny*
